DEHRADUN

WELCOME TO THE SMART TOWNSHIP

MEMBER OF
CREDAI

RERA
Registered

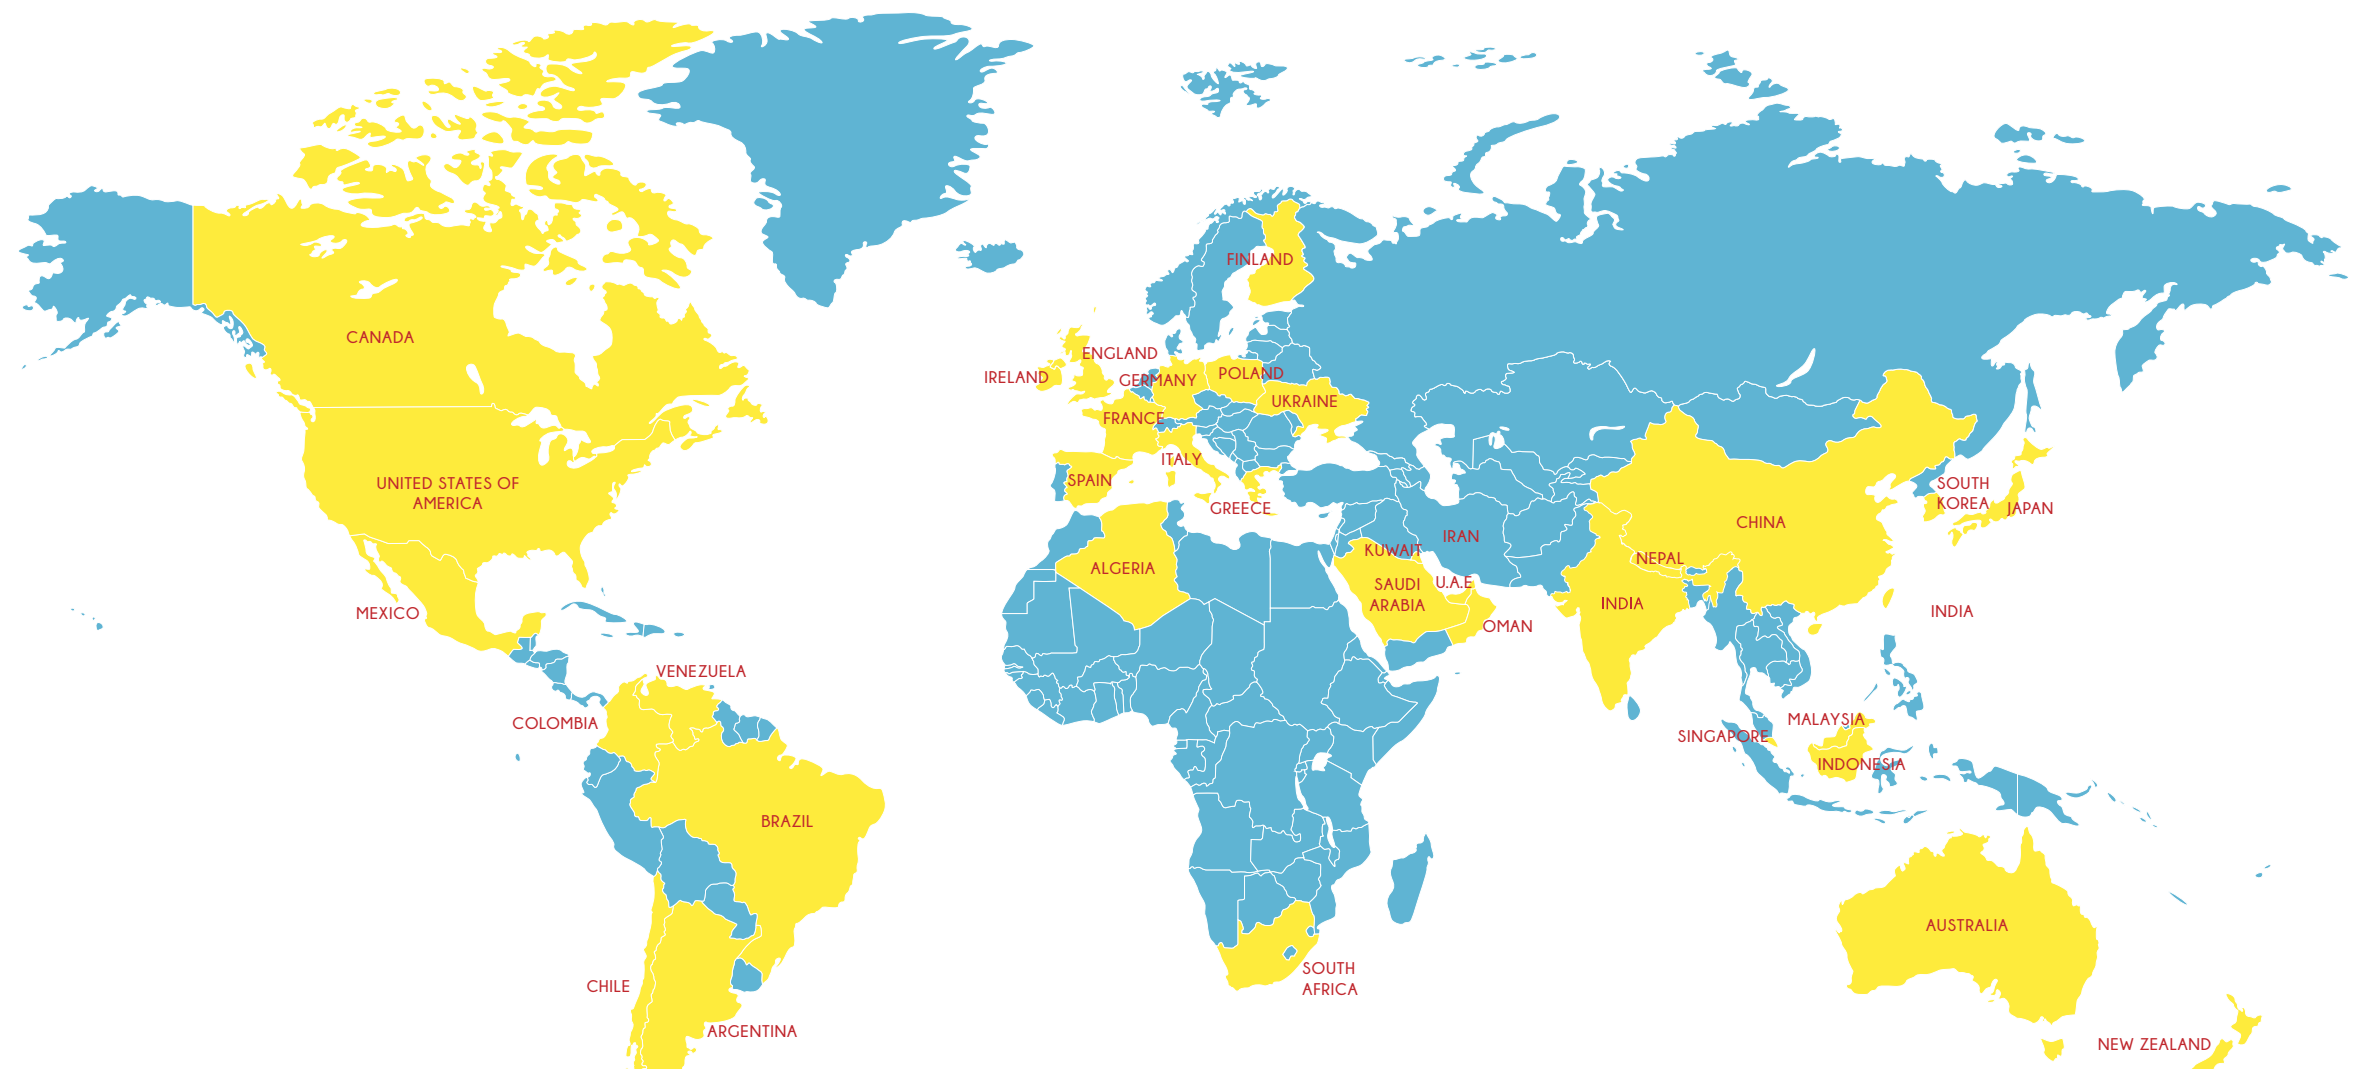

North India's Largest & Fully Integrated
Smart Township in Dehradun

A man in a white shirt and green shorts is sitting on a blue inflatable in a swimming pool. The pool is surrounded by a modern building with large windows and balconies. There are several palm trees and other tropical plants around the pool. The sun is setting in the background, creating a warm, golden glow. The sky is a mix of orange and blue, and there are some birds flying in the distance. The overall atmosphere is peaceful and luxurious.

SKY WALK - ALAKNANDA TOWERS

SKYWALK ON ROOFTOP

For the first time in North India - a very unique Skywalk with the mesmerizing essence of Dehradun Valley surrounded by picturesque hills & forests. Green walkway with lots of plants, sit out areas, open gymnasium, barbeque pits, infinity swimming pool, kids play areas etc. Enjoy reading your morning newspaper along with tea & catchup with your friends at the kiosk in evening.

Soak in the fresh & cool breeze, beautiful landscape & enjoy the scenic views of Mussoorie hills & Rajaji National Park forest.

SKY WALK - KAVERI TOWERS

*The concept is purely for information purpose. The details pictured in the design are subject to modifications and updates.

MIVAN SHUTTERING TECHNOLOGY

Windlass Developers is one of the foremost companies of North India to introduce world-class construction technology to Uttarakhand. This technology is being used to construct the most iconic structures around the world namely - Burj Khalifa (Dubai), L&T (Hyderabad), Raheja Corporation and Lodha Developers (Mumbai), etc. The Technology promotes Speed in Construction, Strength, and Durability in Structure, Quality in Finishing and Higher Efficiency.

GUIDING PILLARS

• QUALITY • INTEGRITY • TIMELY DELIVERY

Ready Mix Concrete (RMC) Plant

We have our in-house Ready Mix Concrete plant (RMC). Buying concrete from outside was an easy option for Windlass but we knew to maintain highest quality standards and to ensure we provide the best product for our customers we should setup an in-house RMC plant. We are proud to claim that we have the best RMC plant, Transit Mixture trucks, Stationary and Boom Pump all from Schwing Stetter, worlds largest and most advanced RMC plant and machinery manufacturer from Germany. This in-house strength gives us the flexibility to provide highest quality concrete at any height from all angles round the clock.

Quality Control Laboratory

Windlass Developers believes in using the best products for the construction work and therefore test every material that is being utilized in the process. An in-house Quality Control Laboratory has been set up within the Township to test the raw material and the products that are used for construction work. Once the product clears our rigorous tests, a detailed report is maintained and it is only then allowed to be utilized on site.

Actual Image

INTELLIGENT FEATURES OF OUR SMART TOWNSHIP

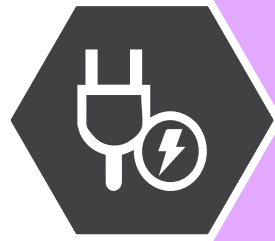

24x7 CCTV & Security

The Township will be constantly monitored to ensure the safety and security of the residents. 24x7 CCTV surveillance along with armed security personnel will ensure a safe environment.

Optical Fiber Cable

Windlass introduces for the first time in North India most advanced a single optical fiber for easy and high-speed TV, Internet/WiFi, and Landline/Intercom phone connectivity.

Automatic 24x7 Power Backup

Automated and uninterrupted 24x7 power supply will offer the residents a hassle-free and comfortable life within the township.

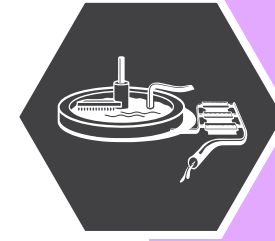

Water Treatment Plant

The water supplied to each household will be treated with state-of-art purification process to improve its quality for household use.

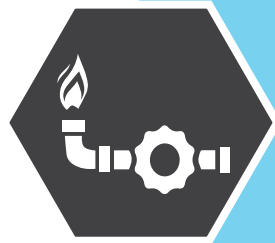

Smart Metering - Electric & Gas

Automated pre-paid meters for Electricity and Gas. Top up as per your requirement at the click of a button through a phone app or the website. No hassle of monthly bills.

Sewage Treatment Plant

It is the only project in Uttarakhand to install and operate technically advanced Sewage Treatment Plant to ensure complete treatment of the sewage generated from every household.

Direct Piped Cooking Gas

Windlass is bringing a large scale solution to cater to cooking gas requirements through Direct Piped Lines supplied to your kitchen with highly automated setup.

Organic Waste Management

All the waste generated from each household will be treated by mounting several organic waste processing machines, which will in return provide manure for plants and trees of the township.

Building Management System

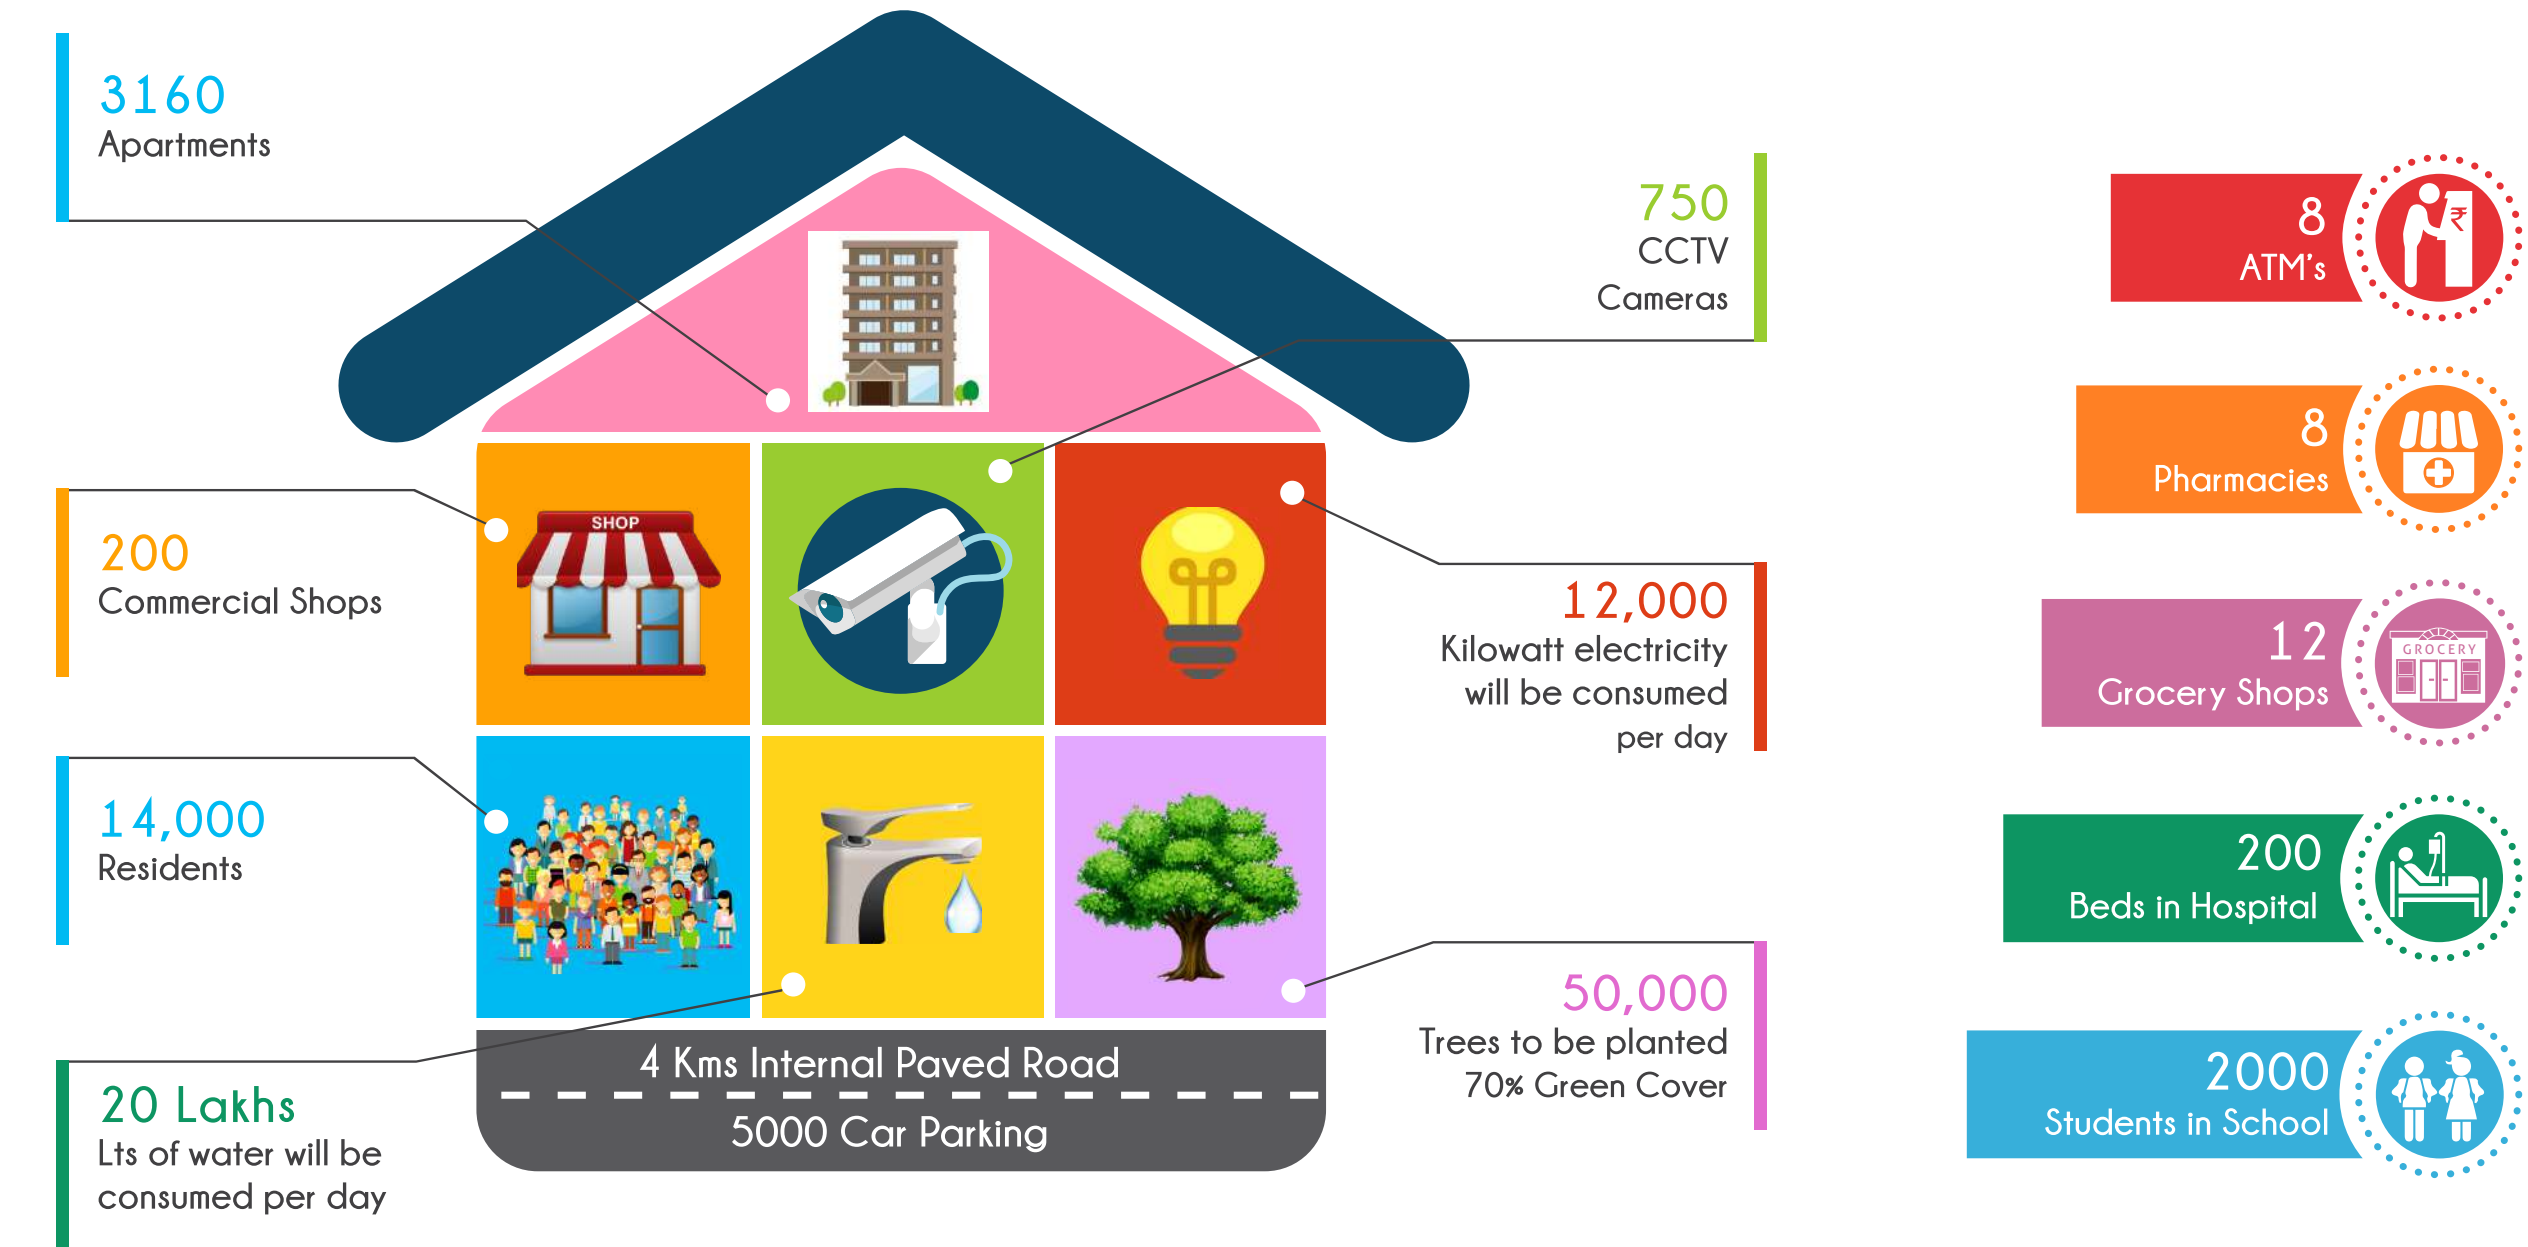

Windlass for the first time in India is bringing the Building Management System- this notifies the administrator of timely maintenance of different facilities in the township and runs them automatically.

Rain Water Harvesting System

Windlass River Valley is constructing Rain Water Harvesting chambers within the township. The system is designed to collect rain water to restore and rejuvenate the ground water table.

TOWNSHIP IN NUMBERS

*These are approximate data numbers. This may vary as per the project requirements.

A photograph of three elderly men in a grassy field. One man in a red shirt is pushing a wheelbarrow. Another man in a yellow shirt is sitting in the wheelbarrow, and a third man in a white shirt is lying on his back on top of him, with his legs raised in the air. They are all smiling and laughing, suggesting a playful and joyful activity. The background shows a line of trees under a bright sky.

CONTINUED CARE RESIDENTIAL COMMUNITY (CCRC)

A Holistic Approach to Well-Being

Windlass provides holistic care, ensuring a lifelong home for residents of all ages. The community caters to diverse needs, setting a new standard for excellence in services. For young professionals, it offers a supportive environment with essential services to focus on career goals. Families thrive with recreational, educational, and social opportunities, providing a safe space for children and peace of mind for parents. Retirees and seniors enjoy a nurturing environment with tailored healthcare and assistance, ensuring a worry-free retirement. Windlass, a benchmark in comprehensive care, fosters a sense of belonging for residents, promising an unparalleled quality of life.

KAVERI TOWERS

QUALITY IS IN OUR DNA

Just like how a human body is made of highest quality bones, organs and other parts such that they can withstand the test of time, similarly a high quality building is designed with highest quality steel, cement, water proofing, conduits for electrical and plumbing. These high quality materials ensure that a building provides comfortable living to its residents.

Keeping the above in mind, we at Windlass have a strict policy of buying only from the best. We strictly buy the best material from Steel Manufacturers, Cement Manufacturers, we are using the best waterproofing technology in the world, using the highest strength conduits for electrical and plumbing work.
